

Complimentary. The following, copied from the editorial columns of The Bazaar of New York, will be appreciated by our lady readers:—

A DESIRABLE HOLIDAY GIFT. At this season of the year every one expects to give and receive presents. In a sentimental sense, the value of these is estimated by the motive which prompted the giving. Thus, things in themselves may be invested with a value beyond that of gold. But this is an age of practicality as well as of sentiment, and presents possessing an intrinsic as well as an associated value are most eagerly sought after by gift-givers, and most highly prized by the recipients. In this age of changing fashions and rapid transitions, it is difficult to find articles which will retain their value. More difficult still, one would think, to find those which not only will not lose their value, but which may be made to yield a permanent and special interest. Yet in the Grover & Baker Sewing Machine we have such an article.

Any first-class sewing machine is suitable for a present to be duly appreciated by any woman, be she wife, sister, daughter, mother, or bride-elect. But we recommend the Grover & Baker, because it is the best. Our reasons for pronouncing it to be the best, and to those who are interested in the merits of sewing machines, obvious. But even the uninitiated, even the most superficial observer, will at once see the value of such points as these:— The thread can be used directly from the spool, thus saving the waste and trouble of rewinding. Two spools are used instead of one, and great beauty and elasticity are thereby attained. It makes a stitch which, while it has its peculiar and unparalleled advantages in the way of plain sewing, can be turned to account in all kinds of embroidery and ornamental needlework. Owing to the use of two threads, silk and flax can be used on one side and cotton on the other, and a great saving of these rich materials is thereby effected. The machine is extremely simple, and consequently easily understood, and not liable to get out of order. It depends for strength not on bulk—not on the quantity—but on the fine quality of the material employed in its construction, which produces an article of neat and elegant appearance, greatly facilitating the labor of the worker by resulting in extreme lightness. Even children and the most delicate and fragile ladies can work them with ease and pleasure. Another advantage of this attention to quality is that, while it is strong enough to do the heaviest manufacturing work, it is fine enough for the most delicate fabrics—the most gossamer tissue and the finest lace, in a style equal to that of the most expensive finery. It can do all that any machine can in hemming, felling, tucking, gathering, quilting, braiding, etc., and that, too, in a finer style, and with less expense of time and material, than any other machine. Besides this, it can do what no other machine can do, namely, embroider. For this quality alone it is worth its price to any family that would dress fashionably. And yet it costs no more than a machine without the capacity of embroidery. Add to all these the peculiarity that, while its stitching will not rip or stretch or strain, or even by cutting at intervals, it can yet be ripped with the greatest ease when ripping is desired. Owing to these and to other qualities, it has won for itself the position of favorite of the ladies—the most popular machine of the day. Altogether, it is a machine that is well adapted to a most acceptable present to the majority of American ladies.

RECEIPTS FROM WATER RENTS.—The amount of water rents assessed in the different wards of the city for the past and the ensuing year is exhibited by the following statement:—

Table with 2 columns: Wards and Amount. Lists amounts for various wards like First, Second, Third, etc., with corresponding dollar amounts.

It depends for strength not on bulk—not on the quantity—but on the fine quality of the material employed in its construction, which produces an article of neat and elegant appearance, greatly facilitating the labor of the worker by resulting in extreme lightness. Even children and the most delicate and fragile ladies can work them with ease and pleasure.

It can do all that any machine can in hemming, felling, tucking, gathering, quilting, braiding, etc., and that, too, in a finer style, and with less expense of time and material, than any other machine.

ADD TO ALL THESE THE PECULIARITY THAT, WHILE ITS STITCHING WILL NOT RIP OR STRETCH OR STRAIN, OR EVEN BY CUTTING AT INTERVALS, IT CAN YET BE RIPPED WITH THE GREATEST EASE WHEN RIPPING IS DESIRED.

OWNING TO THESE AND TO OTHER QUALITIES, IT HAS WON FOR ITSELF THE POSITION OF FAVORITE OF THE LADIES—THE MOST POPULAR MACHINE OF THE DAY. ALTOGETHER, IT IS A MACHINE THAT IS WELL ADAPTED TO A MOST ACCEPTABLE PRESENT TO THE MAJORITY OF AMERICAN LADIES.

MEMORIAL SOCIETY'S GRAND CONCERT.—The concert of the Mendelssohn Society takes place at the Musical Fund Hall this evening, when a most elegant and varied program will be presented.

THE NEW GILL.—On Monday evening next Mr. G. Fox opens at the Arch Street Theatre with the splendid new pantomime called Jack and Gill. It will be produced in splendid style, and will cost over two thousand dollars. It is fully equal in effect and grandeur to the last scene in the Black Crook, at Niblo's, New York.

CENTRAL POLICE STATION CASES TODAY.—William Turner was before Alderman Butler on the charge of the larceny of a set of fur and a suit. Charge Officer Jones was him cornered on the street, on Wednesday morning, with the articles under his coat. When asked where he got them, he said he picked them up in the street, and he was taken to the station. Alderman Massey. The furs were valued at eighty-five dollars, and were recognized as the property of Mrs. Spooner, No. 611 N. Sixth street. Turner was held in \$500 bail.

AN INTERESTING ITEM FOR LADIES.—The removal of the "NE PLUS ULTRA" Hoop-Skirt Emporium of M. A. Jones, late of No. 17 North Eighth street, to the large and elegant warerooms, No. 810 Arch street, is an event which we deem well worthy of announcement. The change had become necessary from the fact that the late location was entirely inadequate for properly conducting a business which has steadily increased with each succeeding season. The present establishment is admirably adapted to the requirements of the business, being elegantly located, and comprising spacious warerooms tastefully fitted up, and well stocked with skirts and Corsets of every desirable style. To speak in terms of commendation of these NE PLUS ULTRA goods, made by M. A. Jones, is altogether superfluous. They are known and appreciated by ladies throughout our land, who, having worn them once, will wear no other. They are modeled in the most desirable styles, set gracefully and easily, and are by universal consent the most durable, and therefore the most economical, that are made.

THE FIRST ANNUAL MEETING OF THE STOCKHOLDERS OF THE WARREN AND FRANKLIN RAILROAD COMPANY was held at the Company's office, corner of Second and Walnut streets. The report embraces matters of interest to the stockholders, and was read by the time occupied from the commencement of the survey to the completion and opening of the road for business was nine months. The road diverges into two branches, one to the west, and another to the east. The western branch follows the Allegheny river to Oil City, a distance of fifty-two miles, and the eastern branch follows the Allegheny and Great Western branch to Meadville, and a road extending up Oil Creek and Cherry Run. The Warren and Franklin opened their road on August 4, and on December 21, a "Chicago and Erie" road, 65,000 passengers have passed over the road. This line, being much the shortest one to the Atlantic cities, is doing a large and profitable business. The road is controlled by a few parties connected with the railroad enterprises of our State. The following persons were elected managers for the coming year:—E. F. Gray, William G. Moorhead, C. B. Wright, Milton Courtwright, Edward Miller, C. F. B. Jeffries, and R. D. Barclay.

FROM WASHINGTON THIS AFTERNOON. (SPECIAL DESPATCHES TO EVENING TELEGRAPH.) WASHINGTON, January 19. Personal. Hon. E. B. Washburne, of Illinois, will leave Washington to-day, to take passage by the steamer Paris, on his health trip to Europe. The Impachment Urged. Rev. Mr. Hume, publisher of the Richmond News, John M. Bots, General Hamilton, of Texas, and Dr. Durant, of Louisiana, are here warmly advocating the impachment movement, as affording the Union men of the South the only chance of sustaining themselves. They represent that Union men are under the ban, socially and in business, and that the freedmen have no redress whatever for the most cruel treatment. They urge that the course of the President relative and friendly to the freedmen, and that it cannot be borne for two years longer. A Veto Expected. The veto of the Colorado and Nebraska bills is expected the first of next week. Ways and Means. Secretary McCulloch was before the House Committee on Ways and Means two hours to-day, on the Gold bill. League Island Favorably Reported Upon. The Senate Naval Committee have decided to report favorably on the House bill accepting League Island for an arsenal for iron-clads. Senator Caldwell has introduced a bill to the Committee to-day in favor of League Island. BY THE ASSOCIATED PRESS. The Proposed League Island Navy Yard. WASHINGTON, January 19.—The Senate Committee on Naval Affairs had the subject of the League Island Navy Yard before them this morning. Senator Cattell, of New Jersey, made an argument in favor of accepting that site. The Committee agreed to the House bill for the purpose without amendment, and recommend its immediate passage. CONGRESSIONAL PROCEEDINGS. Senate. WASHINGTON, January 19.—The Chair laid before the Senate a communication from the Secretary of War, transmitting the report of the Engineer's Department of the Army, for the year 1866. Several petitions for an increased tariff on wool were presented, and ordered to lie on the table. Mr. Hendricks, from the Committee on Naval Affairs, reported the House bill of last session, in favor of the League Island Navy Yard, and called for iron-clads of the Navy. Ordered to be printed. Mr. Williams introduced a bill to grant additional land in aid of the construction of a railroad from Lake Superior to Puget Sound, on the Pacific coast, by the Northern route. Referred to the Committee on the Pacific Railroad. Mr. Wilson offered a resolution, which was adopted, instructing the Committee on the District of Columbia to inquire and report whether the corporation of the District of Columbia is authorized by Congress to require a portion of the school fund to be set apart for the support of colored schools. Mr. Wade (Ohio) called for a bill to authorize the Baltimore and Potomac Railroad to construct a lateral branch of their railroad into and upon the District of Columbia. Mr. Johnson (Md.) said the charter of the Company, granted by the State of Maryland, did not authorize the road to come here. Maryland had great interest in the road, and it might be to her interest not to allow the new road to come here. He suggested that the bill be referred to the Committee on the Pacific Railroad. Mr. Wade (Ohio) said this question had for a long time been before Congress, and all that could be done on the subject had been said. Those who were interested in the Baltimore and Ohio Railroad, of course, did not want this question raised. He did not see why Congress should not pass this bill. There was but one railroad now entering this city, and it was a monopoly of the road, and could not not vote for a competing road, which was built merely as a matter of speculation. Mr. Yates (Ia.) said that the entire length of the new road was not yet surveyed, and that it would take some time to Washington. He could not see any objection to it. The morning hour expired, and the regular order, which was the Bankrupt bill, was called for. Mr. Wade (Ohio) moved to postpone the regular order for the purpose of proceeding with the Railroad bill. The yeas and nays were taken, and the Senate refused to postpone the regular order. Yeas, 10; nays, 21. Yeas—Messrs. Buckalew, Fogg, Fowler, Morrill, Sherman, Sprague, Stewart, Wade, Wilson, and Yates. Nays—Messrs. Anthony, Brown, Dixon, Doolittle, Fessenden, Foster, Frelinghuysen, Grimes, Harris, Henderson, Hendricks, Howard, Howe, Johnson, Kirkwood, Lane, Morgan, Norton, Patterson, Poland, and Williams. The Railroad bill went over till Monday, and the Bankrupt bill passed by the Judiciary Committee, making sixty printed pages. House of Representatives. On motion of Mr. Wilson (Iowa), the Committee on Printing was instructed to inquire into the expediency of providing for the publication of the Congressional Globe in the form and style of the debates of the British Parliament. The Speaker (Iowa) offered a memorial from the Dakota Legislature relative to a geological survey of the Black Hill country. Mr. Benjamin (Ia.) offered a resolution to pay Alexander C. Coffroth, late Representative from Pennsylvania, the amount of the increased compensation from the commencement of the Thirty-ninth Congress to the period when he ceased to be a member. Referred to Committee on Judiciary. This being a private bill day, the bill which was before the House yesterday, in relation to the Metropolitan Fire and Marine Insurance Company of the District of Columbia, came up as unfinished. Mr. Wilson (Iowa) moved to lay the bill on the table. The bill was laid on the table by a vote of yeas 59, nays 32. The House then proceeded to call committees for reports of a private nature.
